

BLINC-A2

Power On

Push and hold the “Power” button for at least 2 seconds to power on. The Blue LED turns on and you will hear ascending beeps an “Power on”

Power off

Push the “Power” and “Phone” buttons at the same time for 2 seconds, the red Led turns on for about 1 second until it turns off completely and you will hear “Power off”.

Pairing with Phone

Please make sure the Blinc-A2 is in power off position. Push the “Power” button for at least 5 seconds till the LED flashes in red and blue alternately and you will hear a voice prompt saying “Pairing” in the speakers. Enable your Bluetooth function on your mobile phone. Your mobile phone will now scan nearby devices and find a device named “BLUETOOTH HELMET”. Please allow your mobile phone to pair with the device. When pairing has completed and the Blinc-A2 is ready for use you will hear a voice prompt saying “Pairing successful” in the speakers.

Once pairing between the two devices is successful, the LED lights on the Blinc-A2 will change from red and blue flashing lights to a blue LED light only.

Note: if a PIN code is required by your mobile phone, please enter “0000”.

If you paired with your phone and Blinc-A2, Blinc-A2 will connect your phone automatically when you turn it on again.

Pairing with a second Bluetooth device or mobile phone

Multipoint Bluetooth pairing allows the Blinc-A2 to connect two Bluetooth devices at the same time.

You can pair the first and second Bluetooth device or mobile phone to the Blinc-A2 by following the simple procedures in “Pairing with your mobile phone”.

After second Bluetooth device or mobile phone confirms that pairing has completed, select the Blinc-A2 in the list of the devices on your first Bluetooth device or mobile phone.

After the first Bluetooth device or mobile phone confirms the pairing has completed and the Blinc-A2 is ready to use for two Bluetooth devices or mobile phones.

Intercom

The BLINC-A2 can be paired with another headset for Bluetooth intercom conversation.

1. Turn on the two Blinc-A2 headsets (A and B) that you would like to pair with each other
2. Press and hold the “Power” button of the headset A and B for 2 seconds until the LED flashes red and blue alternately. You will hear a voice prompt saying “pairing”
3. Simply press the “Power” button in only one headset (it doesn’t matter that you choose A or B) you will hear a voice prompt saying “Searching” and wait until the LEDs of both headsets turn to blue and intercom connection is automatically established, and after you will hear a voice prompt “Pairing successful”. Procedure is completed.

If the pairing process is not completed within two minutes, the Blinc-A2 will return to stand-by mode.
